

Derived Product

ID	590
Uses ID	1,864
Product Name	Shampoo
Product Description	The high content of anthocyanins and phenolic compounds with important antioxidant activity was used in cosmetic preparation for the treatment and prevention of skin damages. Among these products, both the extract and the pulp of açaí fruits are used as moisture agents in creams, hair conditioner, and shampoo. The açaí fruit pulp has properties of nutrition and capillary brightness. The oil extracted from the pulp is used in shampoos and body lotions. The glycolic extract of açaí was used to prepare a sunscreen emulsions (o/w). The resulted cream showed a good protection UV-A and UV-B factor.
