

Uses

ID	1,479
Crop ID	Indian Borage
Part	Whole
Use Category	Medicinal
Notes	The antibacterial and antiseptic properties of the plant have been attributed to the presence of a number of compounds in the plant, including carvacrol, codeine, flavones, phenols, tannins and aromatic acids. The plant has been shown to have antimicrobial activity, and is reported to have antiviral activity against Herpes simplex virus-1, and anti-HIV inhibition activity.
