

# Uses

ID	575
Crop ID	African Nut Tree
Part	Wood
Use Category	Industrial
Notes	The wood, called 'erimado' or 'essessang' in trade, is very light, soft and perishable, but is occasionally used in carving and for making household utensils, furniture, boxes and crates. The wood is also suitable for boat building, sporting goods, toys and novelties, hardboard, particle board, plywood, wood-wool and wood-pulp.
